

My experience in Canada

IT'S HUGE!!!

- The roads
- The houses
- The microwaves
- The cars
- The fridges

All schools have their own logo, colour, name but also a symbol to represent them. For my school, it was the rams, powerful and brave. Of course, the famous school buses!!

Brockville Collegiate Institute

90 Pearl Street East

School is usually boring.
But I had a lot of fun at
school in Canada.

On the right my
timetable, only 4 classes
a day and you're done a
2pm!! That's **AWESOME**
Then you have time for
extracurricular
activities.

Schools have clubs of
every kind: music, arts,
sports. I joined the
badminton club and also
the rugby club.(you get
to miss school when
you're part of a club ;)

I got to explore Canada through Kayak and fireplaces with my host family

They also offer trips to international students. I had the chance to do a few of them. I've met multiple people through these trips, made great friends! I would recommend to do them if you can.

Winter is rough. If you're a winter person like me, you'll love it.
Otherwise, get under your blanket ASAP!!

A few pictures to make you dream
of Canada.

Niagara Falls/Northern Lights/lake

Silly/funny things

But also love, friends and family
